Personal Profile

Software Engineer with 1+ year of professional experience building production backend systems, REST APIs, data pipelines, and AI/ML applications in Python. Strong foundations across the full software development lifecycle, from system design and development through to deployment, monitoring, and optimisation. Experienced working in Agile teams across financial services and technology environments, collaborating with cross-functional stakeholders to deliver reliable, scalable software. Background spans backend engineering, data engineering, and AI/ML integration, with growing expertise in cloud infrastructure and distributed systems. MSc Computer Science graduate (CGPA 8.10) seeking permanent international roles across software engineering, data engineering, or AI/ML engineering.

Skills

Languages: Python, Java, JavaScript, C#, SQL, Bash

Backend and APIs: FastAPI, Flask, REST API Development, Microservices, Async Processing, API Design

AI and ML: Scikit-learn, TensorFlow/Keras, LangGraph, RAG, Multi-Agent Systems, Pandas, NumPy, NLP

Databases: PostgreSQL, MySQL, MongoDB, Schema Design, Query Optimisation, Data Modelling

Cloud and DevOps: AWS (exposure), Docker, Docker Compose, Linux, Git, GitHub, CI/CD, pytest

Engineering Practices: SDLC, Agile, Code Review, Test-Driven Development, Debugging, Troubleshooting

Frontend: React.js, TypeScript, HTML, CSS

Work Experience

Software Engineer Intern

Jan 2026 – Present

Sharelog Techguide Pvt. Ltd., Pune, India

- Developed production-grade Python backend services and REST APIs for a financial trading analytics platform, improving data ingestion throughput by **30%** and serving **500+** active users.
- Engineered real-time data pipelines integrating hardware and market data APIs with **PostgreSQL**, reducing manual intervention by **70%** and production errors by **40%** through systematic testing and **CI/CD**.
- Optimised PostgreSQL database performance through schema restructuring and indexing, improving query throughput by **30%** and reducing latency by **15%**.
- Deployed containerised **FastAPI** services with **Docker**, cutting deployment time by **50%**, and collaborated in Agile sprint cycles contributing to code review and stakeholder communication.

Game Developer (Collaboration)

Oct 2024 – Oct 2025

SKY3D Studio, Mumbai, India

- Constructed a complete Unreal Engine 5 game implementing **15+ modular gameplay systems** using Blueprint scripting and event-driven architecture, reducing interaction bugs by **30%**.

Software Engineer Intern

Aug 2023 – Apr 2024

SKY3D Studio, Mumbai, India

- Shipped **10+ features** in 2-week Agile sprints, maintaining **99.9% production uptime** across backend services handling **1,000+ monthly requests** and resolving **50+ technical issues**.

Projects

AutoStream – Agentic AI Data Pipeline

2026 | [GitHub](#)

- Architected a multi-agent AI platform using **LangGraph** and **RAG** with **FastAPI** microservices, **Docker Compose** deployment, optimised **PostgreSQL** schemas, and structured logging for production reliability.

Healthcare Chatbot – ML Prediction System

2024 | [GitHub](#)

- Built an end-to-end ML pipeline (**Scikit-learn**, TF-IDF NLP) processing **130+ features**, served via **6+ Flask REST endpoints** at sub-200ms latency with systematic test coverage throughout.

Student Dropout Prediction – Analytics Platform

2025 | [GitHub](#)

- Produced a machine learning analytics platform (**F1: 0.88**) on **5,000+ records** with a **Streamlit** dashboard, reducing manual analysis by **40%**.

Website Deployment – Cerebrait

2026 | [Website](#)

- Deployed a website to a new domain with fresh **DNS** configuration and hosting, using **Docker** for containerised deployment.

Education

MSc in Computer Science

July 2024 – June 2026

MIT World Peace University, Pune

CGPA: 8.10 / 10

BSc in Computer Science

July 2020 – Aug 2023

Nowrosjee Wadia College, Pune

CGPA: 7.36 / 10

Certifications

Foundations of AI and Machine Learning

Microsoft – Apr 2026
